Jodhpur, Rajasthan, India

LinkedIn | GitHub | Portfolio | LeetCode | HackerRank | Codeforces

Education

- **Jodhpur Institute of Engineering & Technology** — Jodhpur, Rajasthan, India
  B.Tech in Computer Science (Artificial Intelligence & Machine Learning)
  CGPA: 9.59/10 — *2024 – 2028*

Work Experience

- **Sophia Edu & IT Solutions** — May 2026 – Present
  AI/ML Intern — *Jodhpur, Rajasthan, India*
  - Developed and implemented ML models for prediction, classification, and data analysis tasks using Python, Pandas, NumPy, and Scikit-learn.
  - Assisted in building AI-based solutions and automation workflows for practical business use cases.

- **Infosys Springboard** — Jan 2026 – Apr 2026
  Machine Learning Intern — *Remote*
  - Engineered an end-to-end NLP-based email classification system using TF-IDF and ML models (LR, SVM, RF), achieving 97–98% accuracy across categories.
  - Designed and deployed scalable REST APIs using FastAPI for real-time inference with low latency at production scale.
  - Built a Streamlit analytics dashboard and deployed the full system on cloud using Docker for scalability and reproducibility.

Skills Summary

- **Languages**: C++, Python, SQL
- **Core CS**: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks
- **Backend & APIs**: FastAPI, REST APIs, LangChain
- **Databases**: MySQL, MongoDB, Supabase
- **AI & ML**: NLP, LLMs, RAG, Scikit-learn, Prompt Engineering
- **Tools & Platforms**: Docker, Git, GitHub, Firebase, Google Colab

Projects

- **AI-Powered Autonomous QA Agent** | GitHub Repository | Live Demo — 2026
  - Tech stack used: React.js, TypeScript, Node.js, Express.js, OpenAI API, Playwright.
  - Built an AI-powered QA agent that generates and executes end-to-end web test cases from natural language instructions, reducing manual testing effort by 70%.
  - Integrated OpenAI and Playwright to automate browser interactions, bug detection, and regression testing across web applications.

- **AI-Powered Smart Email Classifier for Enterprises** | GitHub Repository | Live Demo — 2025
  - Tech stack used: Python, TensorFlow, FastAPI, MongoDB, Docker.
  - Built an NLP-based email classification system achieving 90%+ accuracy across multiple categories with FastAPI REST APIs and Docker-based containerization for scalable real-time inference.

Achievements

- Solved 500+ DSA and competitive programming problems across LeetCode, Codeforces, and HackerRank.
- Achieved a **LeetCode Contest Rating of 1440**.
- Open Source Contributor – **GirlScript Summer of Code (GSSoC) 2026**.
- Hackathon Finalist – **Code Cubicle 5.0**, Microsoft-sponsored national hackathon, Bangalore.
- Earned Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate (certificate).
- Earned Oracle Cloud Infrastructure 2025 Certified Generative AI Professional (certificate).
